

We've Been and We'll Be

Tell us, tell us

How long we have been and been and been

How did we come into this world?

Tell us oh forest how did we treat ourselves?

We met the warm shadow

You've led your life with the knife

And your sorrows out loud

Age after age followed

As migratory birds

They fly away but the forest grows

Yelling even more Osean like

The Oas Land builds new times

We will leave our land, hurray!

It's an hour to honour it

We've always been and will be

As long as our Oas Land lives on

The Sun, the Forest and Romania

Although we've encountered many hardships

We've been and we'll be
